STOP THE HMRC AND DWP CLOSURES

Southend needs jobs and vital public services

The government plans to close the Southend HMRC office in 2022 and Southend Benefit Service Centre by 2020.

We the undersigned oppose the closure of Southend HMRC office and Southend Benefit Service Centre. We believe closing these offices will be detrimental to many unemployed and vulnerable people in the area. The closures will have a detrimental effect on the local economy and efforts to regenerate the town.

The Public and Commercial Services Union (PCS)

is campaigning in the community to keep both offices open.

- We call on Sir David Amess MP and James Duddridge MP to intervene by explaining to the government the devastating affect the closures will have on the economy and the significant impact in the run up to Brexit and beyond.
- We also call on Sir David Amess MP and James Duddridge MP to join the PCS campaign to keep jobs local and to make the case to government for doing so.
